

JEEVAN JYOTHI TRUST®

MOBILE HEALTH CARE Report

Saturday 26-09-2009

OVERVIEW:

Our mobile Health Care service visited some more places specifically: Gandhinagar, Chikkaluru, Sundralli, Lambani thanda and Megaldoddi situated in the forest near Hanur. The inhabitants are quite all tribal people. These places are situated on the banks of river Cauvery; 50 km away from Hanur scattered over a large forest territory.

This picture (right) shows their life style and their houses. Ragi & Maize are their staple diet.

The nearest basic medical service centre is in Hanur which distance is 50Km. Medical Service at their door step is a dream which comes true for them.

HEALTH/FOLLOW-UP:

We treated 30 patients (7 male, 22 female and 1 child). Most of them were suffering from respiratory, worm infestation and dental anomalies. We supplied them with the basic medicals and referred some of them to our Hanur Clinic where they can get a deeper check-up by the specialists.
